Branches all over the state

Our company has the largest distribution network in Libya. We operate through **35** branches in the **35** different largest cities in the country. Each branch covers a defined area in its vicinity, some of them are

Al-Jmail – Ajailat – Zawia – Tripoli – Zentan – Gharian – Gasr Akhiar – Zletin – Musrata – Bani Walid – Sirte – Edjdabia – Benghazi – El-Marej - Baida – Tobrouq – Houn and Sebha.

The image below indicates the location of some branches within Libya.

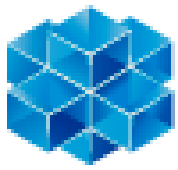

Storage capacity

In our company headquarter storage facility, which also works as the storage facility for Tripoli branch, we have ~13,000 square meters of state of the art storing facilities that are adequately equipped and very spacious, making loading-unloading- storing and dispatching an easy, safe and industrious process.

One of these storing facilities is a refrigerated one that consists of 3 huge ad spacious chambers, which were built to handle the cold chain products.

These storing facilities are used to receive all goods that are imported from outside the country and then distributed to the different branches.

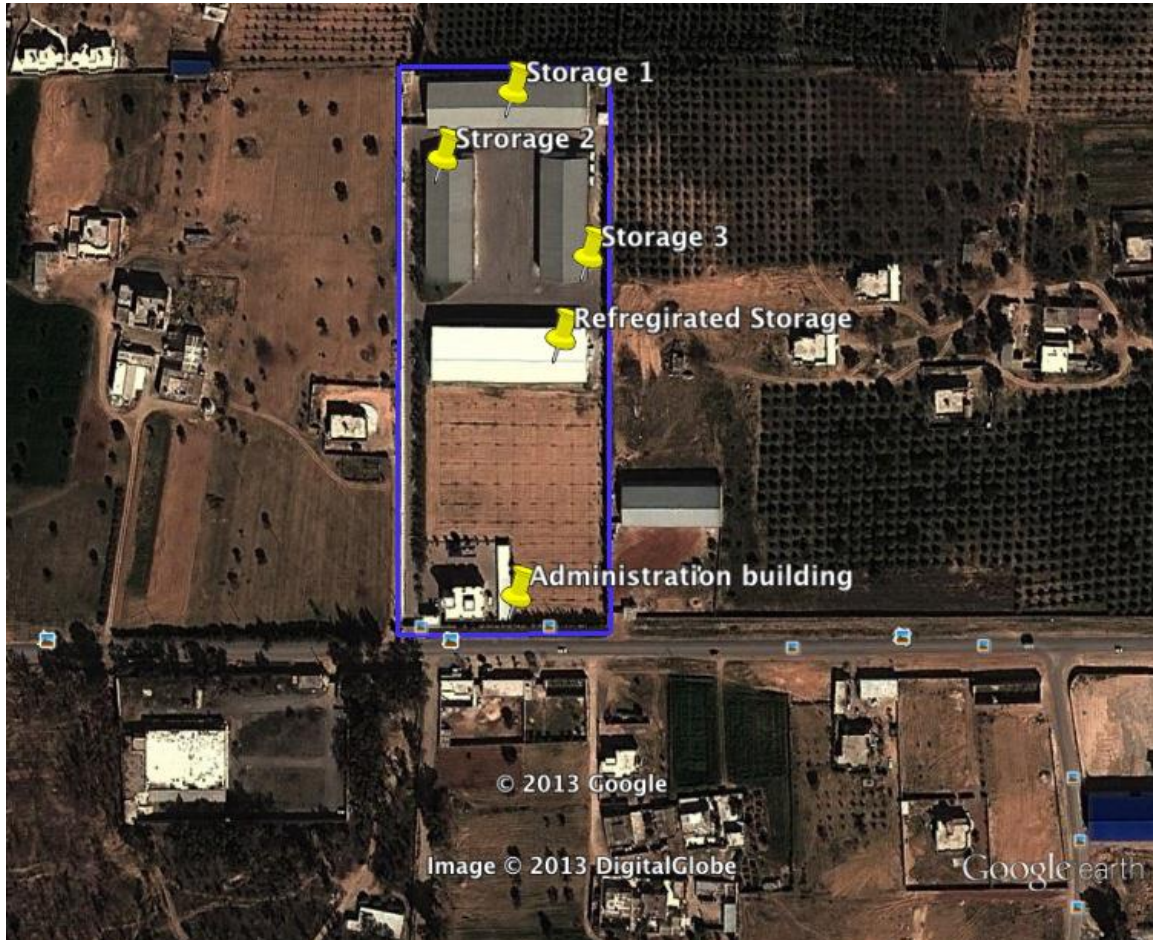

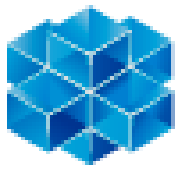

Aljaafari Group

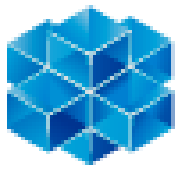

Import and Distribution

Besides this, every branch has its own storing facilities, which vary according to the size and activity of the branch.

Below are snapshot pictures for the headquarter storing facilities.

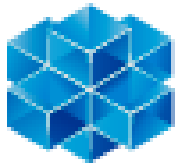

Sales/Distribution Hierarchy

We have designed our sale strategy in a way in which we gain simplicity and productivity. It is basically designed as follow:

- We have a general sales manager, who is located at the headquarter of the company in Tripoli.
- We also have sales managers in each branch all over the country.
- The general sales manager is in charge of distributing goods (all types) that arrive to the headquarter storage facilities to the sales mangers of all branches according to their needs and request.
- The general sales manger is also acting as a sales manager for the Tripoli branch.
- The branches sales mangers have (in most branches) specialized sales distributors for the different categories of products (example; one for diapers and personal care products, one for household cleaning products and one for food products).
- Each sale distributor in every branch deals with the different distributing channels within his distribution area (wholesalers – supermarkets and corner shops).

Aljaafari Group

Import and Distribution

- Each branch, depending on its size, deals with different numbers of wholesalers, supermarkets or corner shops.
- 50 distribution trucks for Tripoli only and Each branch, depending on its size has the enough number of trucks for the logistic process.

Type of customers handled (Retail or Foodservice)

We deal with all kind of customers whether they are retailers, supermarkets, wholesalers, pharmacies and food services companies.
